---

I am a Full Stack Software Engineer, motivated to implement creative ideas into code while also making an effort to learn and excel in the software engineering field, and committed to producing elegant code and to discovering optimal pathways to a solution.

### Technical Skills

Languages: Javascript, Python, PHP.

Tools: ReactJS, Git, Vue, React-Native, NodeJS, Express, Mysql, MongoDB, Mongoose, Firebase, Socket.io, PostgreSQL.

### Projects

DAAY-mall | August/2020 | [Github](#) | [Link](#)

- **Languages:** ReactJS, ExpressJS, Nodejs, Mongoose, Socket.io, Firebase
- DAAY-mall is an online platform for store owners to display and sell their products for users all around the world in an easy, efficient and secure process. The website earns client's trust with its robust system that verifies stores and a direct customers' service that have a live chat with website admins offering continuous feedback.

Dev-home | June/2020 | [Github](#) | [Link](#)

- **Languages:** Ejs, ExpressJS, NodeJS, PostgreSQL, MustacheJS.
- We develop the tools that enable programmers and provide them with solutions that enable them to increase productivity, development and discovery. We help you get answers to your toughest coding questions, share knowledge with co-workers privately, and find your next dream job.

Sooq| June/2019 | [Github](#) | [Demo](#)

- **Languages:** React-native, Express, NodeJS, Mysql, Firebase, Sequelize
- a mobile app that enables their customers to buy and sell second hand products in easy and intuitive way
